### Note:

Regardless of the reason for return, we perform a flat-rate inspection of all devices. Therefore, a flat-rate inspection fee is generally charged for each returned module. This fee varies depending on the type of module and the reason for return. This fee will be refunded depending on the results of the inspection and the classification of the cause of the error.

### Reason for return:

- Ordered by mistake – Return and restocking desired.  
Refund of the purchase price (plus inspection fee between €50 and €110 per device)
- Ordered in error – Exchange for device alternative desired  
Offset the purchase price against the new price of the alternative (plus inspection fee between €25 and €55 per device)
- Replacement/repair due to device defect – inspection and repair requested. If a repair is possible, this will be communicated via a cost estimate and only carried out after approval. If a repair is not possible and the case is not covered by the warranty, a flat-rate inspection fee of €60 will be charged. Please add a separate error description for each module (see page 2). Copy page 2 if needed for additional modules.
